**[Docket No. TM96-1-17-000]**

**Texas Eastern Transmission  
Corporation; Notice of Proposed  
Changes in FERC Gas Tariff**

December 7, 1995.

Take notice that on December 1, 1995, Texas Eastern Transmission Corporation (Texas Eastern) tendered for filing as part of its FERC Gas Tariff, Sixth Revised Volume No. 1, the following revised tariff sheet:

Fifth Revised Sheet No. 126

The proposed effective date of this revised tariff sheet is January 1, 1996.

Texas Eastern states that this revised tariff sheet is being filed pursuant to Section 15.6(E), Applicable Shrinkage Adjustment (ASA), of the General Terms and Conditions of Texas Eastern's FERC Gas Tariff, Sixth Revised Volume No. 1. Texas Eastern seeks by this interim filing to revise the ASA percentages established in its Annual ASA filing to reflect the increased fuel now projected to be required by Texas Eastern for operation of its pipeline system in providing service to its customers. Texas Eastern proposes to revise by this filing only those ASA percentages to be effective for the period, January 1, 1996 through March 31, 1996, the last three months in the current winter season.

Texas Eastern states that interim revisions to its ASA percentages are specifically permitted by Section 15.6(E) of the tariff.

Texas Eastern states that as a consequence of higher throughput assumptions, Texas Eastern projects that it will require an additional 2.7 MMdth of fuel during the period, December 1, 1995 through March 31, 1996, which higher fuel requirement translates into an increase in the ASA percentages from 5.57% to 6.41% for transportation from the ELA area to M-3. Texas Eastern is requesting to place the revision in effect as of January 1, 1996 rather than at the beginning of the winter season on December 1, 1995 because Customers have already determined and nominated their December 1995 service requirements on Texas Eastern's system utilizing the ASA percentages filed on October 31, 1995.

Texas Eastern states that copies of its filing have been served on all firm customers of Texas Eastern, interested state commissions, all interruptible shippers as of the date of the filing.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. Pursuant to Section 154.210 of the Commission's Regulations, all such motions or protests must be filed not later than 12 days after the date of the filing noted above. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
